ABOUT ME

Computer Science student with a strong interest in technology and problem-solving. I'm eager to gain hands-on experience and contribute to real-world projects in a professional environment.

EXPERIENCE

During this tenure, I spearheaded the design of user-centric interfaces and developed responsive web layouts to ensure visual consistency across platforms. I actively collaborated on digital marketing strategies and website optimization, utilizing testing and feedback to enhance overall usability and user engagement.

**VISKAMNIX
Technology and
Training
Services Pvt Ltd**

Dec 2025 – Jan 2026

I undertook a comprehensive Java Full Stack training program focused on building scalable, end-to-end application architectures. This experience sharpened my ability to integrate complex backend logic with seamless frontend components, ensuring a high standard of performance and cross-functional reliability.

Femtosoft Pvt Ltd
May 2025 – June 2025

This internship provided a deep dive into the professional game development lifecycle within a studio environment. I collaborated with the technical team to assist in the design and implementation of interactive media, gaining practical experience in industry-standard game design workflows.
